### MARKET CONDITIONS

The close of the year finds the market for virtually all Farm Seeds very strong.

ALFALFA: Due to the scarcity of Red Clover, our Agricultural authorities recommend increased acreage in Alfalfa where the soil is suitable. The market is very strong on hardy Northwest origins. The less hardy southern grown seed is more plen-

ALSIKE: Due to the scarcity of Red Clover, where the soil not favorable for Alfalfa, our authorities are recommending an increased use of Alsike. The movement of Alsike from producing sections has been much faster in recent weeks. following a sharp price advance.

RED CLOVER: Will the growers who have been holding their Red Clover Seed sell more freely after January 1? The future of the Red Clover market depends largely on the answer to the above question.

CUMBERLAND RED CLOVER: Farmers in New Jersey are being advised to sow Cumberland Red Clover in preference to any other Red. Note quotation in Column 3.
